Humana's 2017 Annual Report is available today – *with the individual in focus we create value*

In the annual report we describe how Humana continues its important work to provide care with focus on the individual. This year we have further developed the quality and employee section to show how Humana has a positive impact on society as a whole, both socially, environmentally and financially. We also describe how the business benefits from being a Nordic group where experiences can be shared across borders.

- In the annual report we show how Humana, with the individual in focus, provides care that combines high quality with good efficiency. Humana thus contributes both to meeting the expectations the citizens have on the care and by creating sustainable welfare. It's good for our customers, employees, investors and society in a broader perspective, says Rasmus Nerman, Humana's CEO
