

Humana takes over operation of Riddarstensgården special care unit in Lerum

03/11/2015 | Elderly Care & LSS Assisted Living

This weekend, Humana took over the operation of Riddarstensgården special care unit in Lerum. Humana already operates Hedegården nursing home in the same municipality.

“Humana's tender was considered the best overall. It makes me particularly proud and happy that our good references and current assignments in the municipality played an important part,” says Eva-Lotta Sandberg, Business Area Manager, Elderly Care & LSS. “This marks the starting-point for Humana's takeover of Riddarstensgården and we look forward to providing the residents with high quality, safe care, while offering the employees a solid workplace,” concludes Eva-Lotta Sandberg.

Humana was determined to have submitted the best overall tender. The takeover was conducted in close collaboration with the municipality and union parties.
